

*Readopt with amendments Env-A 904.03, eff. 7-18-15 (doc. #10892), to read as follows:*

Env-A 904.03 VOC Recordkeeping for Surface Coating and Printing Operations. For all ***industrial adhesives***, surface coating and printing operations that are subject to Env-A 1200, the owner or operator shall maintain records of the following information:

(a) ***Except those sources subject to Env-A 1215.01 through Env-A 1215.04 and Env-A 1216, adhesive***, ~~Coating or ink formulation and analytical data~~, as follows:

- (1) Supplier;
- (2) Name and color;
- (3) Type;
- (4) Identification number;
- (5) Density described as lbs/gal;
- (6) Total volatile content described as weight percent;
- (7) Water content described as weight percent;
- (8) Exempt solvent content described as weight percent;
- (9) VOC content described as weight percent;
- (10) Solids content described as volume percent;
- (11) Diluent name and identification number;
- (12) Diluent solvent density described as lbs/gal;
- (13) Diluent VOC content described as weight percent;
- (14) Diluent exempt solvent content described as weight percent;
- (15) Volume of diluent VOC described as gal; and
- (16) Diluent/solvent ratio described as gal diluent solvent/gal coating;

(b) The number of gallons of each coating and ink, including solvents and diluents, used during a typical high ozone season day ~~for each surface coating or printing operation; and~~

(c) Process information ~~for each surface coating or printing operation identified in Env-A 904.02(a),~~ for a typical high ozone season day including:

- (1) Method of application;
- (2) Number of coats for coating operations;
- (3) Drying method, if applicable; and
- (4) Substrate type and form;

(d) ***For printing operations subject to Env-A 1215.01 through 1215.04, ink formulation as follows:***

- (1) ***Volume percent of VOC;***
- (2) ***Volume percent of VOC and water for the volatile fraction of the ink; or***

- (3) ***For packaging rotogravure and flexographic printing only, pounds VOC per pound of solids or kilograms VOC per kilogram of solids; and***
- (e) ***For printing operations subject to Env-A 1216, cleaning material and fountain solution information as follows:***
- (1) ***Amount of cleaning materials used on a monthly basis, in gallons or pounds for each cleaning material that does not meet either of the requirements in Env-A 1216(a)(1) or (a)(2);***
- (2) ***VOC content described as weight percent or in terms of pounds of VOC per gallon of cleaning solution as applied, if applicable;***
- (3) ***If fountain solution is refrigerated, the temperature of the solution; and***
- (4) ***Documentation of the alcohol content of fountain solutions.***

Repeal Env-A 904.04, eff. 7-18-15 (doc. #10892) as follows:

~~Env-A 904.04 Format for Recording Information for Specified Operations. For surface coating operations and rotogravure, flexographic, and offset lithographic printing, the owner or operator shall maintain records of the information required by Env-A 904.03 using:~~

- ~~(a) Standard forms such as are included in the Recordkeeping Guidance Document for Surface Coating Operations and the Graphic Arts Industry, EPA, July 1989, available as noted in Appendix B; or~~
- ~~(b) Alternate forms that contain the same data and information required by Env-A 904.03.~~

Amend Env-A 907.02, eff. 7-18-15 (doc. #10892), by inserting new paragraph (g), cited and to read as follows:

Env-A 907.02 Annual Emissions Reporting Requirements.

- (g) ***CO<sub>2</sub>e and condensable total PM shall not be subject to Env-A 705, Emission-based Fee.***

#### APPENDIX A: STATE AND FEDERAL STATUTES/REGULATIONS IMPLEMENTED

Rule Section(s)	State Statute(s) Implemented	Federal Statute/Regulation Implemented
Env-A 904.03	RSA 125-C:6, XI	42 U.S.C. 7511a
Env-A 904.04 [repealed]		
Env-A 907.02(g)	RSA 125-C:6, XI	42 U.S.C. 7511a
